

## **Inductive Proximity Sensor/Switch Datasheet**

### CGT4-12GM-L7 Series Cylinder-shaped Proximity Sensor with

## **Longer Sensing Distance**

#### Introduction

- Inductive proximity switch is a device for realizing the non-electrical measurement by inductive winding or the change of coefficient of mutual induction.
- It has high resolution and accuracy for the monitoring and measurement of presence, movement and position of metallic objects.
- The operating distance of the sensor depends on the coil's size as well as the target's shape, size and material.
- It is divided into two categories according to the working state:
  - NO Normal Open type,
  - NC Normal Close type

#### **Features:**

- ◆ Longer sensing distance, can be installed in narrow space, mechanical tolerances or through the protective flim used in detection.
- Power supply reversal connection protection; short-circuit protection, can directly connect with PLC
- Newly added current over-load protection; the elements are made of imported chip
- ◆ Long service life, high reliability and strong resistance property to environment
- ◆ Red LED indicates that it's available to detect the sensor operating state
- ◆ Full thread shape to enlarge the installation space; can use wrench and clamp directly
- Countermeasure to improve the housing intensity and to solve disconnection
- ◆ IP67 protection structure(IEC specification)

| Ordering Part Number: |                    |                       |                 |
|-----------------------|--------------------|-----------------------|-----------------|
| Model                 | Detection distance | Switch point function | Working voltage |
| CGT4-12GM-N1-L7       | 4mm±10%            | NPN NO                | DC6-36V         |
| CGT4-12GM-N2-L7       | 4mm±10%            | NPN NC                | DC6-36V         |
| CGT4-12GM-N4-L7       | 4mm±10%            | NPN NO+NC             | DC6-36V         |
| CGT4-12GM-P1-L7       | 4mm±10%            | PNP NO                | DC6-36V         |
| CGT4-12GM-P2-L7       | 4mm±10%            | PNP NC                | DC6-36V         |
| CGT4-12GM-P4-L7       | 4mm±10%            | PNP NO+NC             | DC6-36V         |
| CGT4-12GM-D1-L7       | 4mm±10%            | DC NO                 | DC10-30V        |
| CGT4-12GM-D2-L7       | 4mm±10%            | DC NC                 | DC10-30V        |
| CGT4-12GM-A1-L7       | 4mm±10%            | AC NO                 | AC90-250V       |
| CGT4-12GM-A2-L7       | 4mm±10%            | AC NC                 | AC90-250V       |

#### **Structure Parameter:**

| Technical Parameter:              |                                    |  |  |
|-----------------------------------|------------------------------------|--|--|
| Rated action distance (Sn)        | 4mm                                |  |  |
| Installation                      | Flush-mounting                     |  |  |
| Reliable movement distance (Sa)   | 0~3.6mm                            |  |  |
| Response frequency (N.P)          | 0.4kHZ                             |  |  |
| Response frequency (D)            | 0.5kHZ                             |  |  |
| Response frequency (A)            | 25HZ                               |  |  |
| Hysteresis (H)                    | Typical values%                    |  |  |
| Reverse polarity protection       | Yes                                |  |  |
| Short circuit protection          | Pulse                              |  |  |
| Working current (I <sub>L</sub> ) | 0~300 mA                           |  |  |
| Insulation impedance              | 50M Ω                              |  |  |
| Leakage current (Ir)              | 0~0.5mA typical values 0.1uA, 25°C |  |  |
| No-load current (I <sub>D</sub> ) | ≤15mA                              |  |  |
| Indicator light                   | Red LED                            |  |  |
| environment temperature           | -20°C~70°C (248-343K)              |  |  |
| Connection form                   | Connector                          |  |  |
| Shell material                    | Brass, Nickel plating              |  |  |
| Induction surface                 | PBT                                |  |  |
| Protection grade                  | IP65                               |  |  |
| Standard                          | EN 60947-1:2004                    |  |  |

#### Remarks:

- Inductive proximity sensors detect the metallic objects.
- > The detection distance may fluctuate with the different materials of the detected target. Custom design in the different rated input current and the output voltage are available.
- ▶ Both the configuration parameters and the cable length can be customized. Standard cable length 2M.
- > If no explicit requirement for the output polarity, the proximity sensor will be supplied based on NPN mode.

WARNING: Incorrect wiring may cause damage to the sensor.
